

Aims of the Society

The Society was formed in 1978, initially to fight for the best route for the village bypass, and has developed into a respected voice for the residents of Addingham and a sounding board for local opinion.

To stimulate public interest and involvement in actively protecting the quality of life enjoyed in Addingham.

To promote high standards of planning and architecture and encourage preservation, conservation, development and improvement of features of public amenity, historic interest or environmental importance.
